Your dream for seductive lashes becomes true with Captivating Lashes from LCN

A lot of women complain about their lashes being too short, too thin or not full enough. Whereas there are fantastic possibilities especially for ladies who have, by nature, very thin or very short lashes to improve their look with lash extensions. The result with Captivating Lashes from LCN is absolutely stunning even for women with very little or very thin lashes. Lash extensions are independent of age and offer great results for all types of women. A successful lash extension depends mainly on the execution by a professional as well as on the quality of the lashes. There are huge differences on the market especially in the area of single lashes. The lash extension method from LCN is executed with the highest professionalism, quality and durability. With Captivating Lashes LCN presents to you a new method of lash extensions. These silk lashes convince with their extremely pleasant wearing comfort and provide a Hollywood-style look. They are available in different curvatures, thickness and lengths.

With the application of Lash-Extensions your Salon will achieve the highest professional results. Individual consultations will allow you to achieve the desired results. Length, count and shape will be determined during a preliminary appointment.

How exactly does a lash extension work?

Absolutely natural appearing silk lashes are being attached to your own lashes – one by one. These lashes will stay until your natural lashes will fall out during the renewal process.

Advantages at a glance:

- long, naturally curved and thick lashes
- a State-of-the-Art method for a beautiful and seductive look
- a natural look and pleasant wearing comfort
- long durability
- their elastic quality provides a natural shape
- application with high quality LCN products
- the highest quality standards and safety
- you will not need Mascara anymore

What do I have to watch out for:

After the lash extension you can continue with your every day chores as usual. To take a shower or take part in sports activities or swimming (24 hours after the treatment) is not a problem at all with Captivating Lashes from LCN. We recommend to refrain from using Mascara. Application of our lashes is suitable for people wearing contact lenses as well.
